DETAILED ACTION

Applicant's election with traverse of Group II, claims 22-27, 45, 46, 49, and 50 in the Paper filed 10/24/03 is acknowledged. The traversal is on the ground(s) that the restriction is traversed. This is not found persuasive because applicant has not provided any arguments that specifically address any of the reasons for restriction and have not shown the restriction requirement to be improper.

The requirement is still deemed proper and is therefore made FINAL.

Claims 1-21, 28-44, 47, 48, and 51-60 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement.

It is noted that applicant asserts benefit of 60/224,383 under 35 U.S.C. 119(e), however there is not statement of this benefit claim in the first paragraph of the specification and there is no data sheet containing this claim of priority benefit.

If applicant desires priority under 35 U.S.C. 119(e) based upon a previously filed application, specific reference to the earlier filed application must be made in the instant application. This should appear as the first sentence of the specification

following the title, preferably as a separate paragraph unless it appears in an application data sheet.

If the application is a utility or plant application filed under 35 U.S.C. 111(a) on or after November 29, 2000, the specific reference must be submitted during the pendency of the application and within the later of four months from the actual filing date of the application or sixteen months from the filing date of the prior application. If the application is a utility or plant application which entered the national stage from an international application filed on or after November 29, 2000, after compliance with 35 U.S.C. 371, the specific reference must be submitted during the pendency of the application and within the later of four months from the date on which the national stage commenced under 35 U.S.C. 371(b) or (f) or sixteen months from the filing date of the prior application. See 37 CFR 1.78(a)(2)(ii) and (a)(5)(ii). This time period is not extendable and a failure to submit the reference required by 35 U.S.C. 119(e) and/or 120, where applicable, within this time period is considered a waiver of any benefit of such prior application(s) under 35 U.S.C. 119(e), 120, 121 and 365(c). A priority claim filed after the required time period may be accepted if it is accompanied by a grantable petition to accept an unintentionally delayed claim for priority under 35 U.S.C. 119(e), 120, 121 and 365(c). The petition must be accompanied by (1) the reference required by 35 U.S.C. 120 or 119(e) and 37 CFR 1.78(a)(2) or (a)(5) to the prior application (unless previously submitted), (2) a surcharge under 37 CFR 1.17(t), and (3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(2) or (a)(5) and the date the claim was filed was unintentional. The Director

may require additional information where there is a question whether the delay was unintentional. The petition should be addressed to: Mail Stop Petition, Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 22-27, 45, 46, 49, and 50 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

All of claims 22-27, 45, 46, 49, and 50 are methods claims that depend from claims that have been withdrawn from consideration. Since these claims have been withdrawn from consideration that instantly examined claims are vague and indefinite since it is not clear what compound are use in the methods, for example.

The prior art is made of record but not relied upon. It is considered pertinent to applicant's disclosure. US 2003/0077568 A1 and Nakanish et al [PNAS, vol. 98(9):5175-5180, 4/24/2001].
